**Developing
innovative
recycling solutions
to maximise
recovery and
re-use**

**GREEN
GORILLA**

Green Gorilla specialise in providing long term sustainable solutions for all your recycling and waste requirements.

We provide suitable containers and collect your recyclables and waste using our specialised collection vehicles on a 24/7 basis. Collected material is either delivered to our own dedicated Resource Recovery Facility or to third party specialist processors such as Visy Recycling Limited.

In addition to recycling and waste services our commercial division specialises in the separate collection of wood waste from manufacturing sites. This material is processed at our own facility into a biofuel supply for Golden Bay Cement.

Our **FREE Green Gorilla App** allows fast ordering for all service requirements. Electronic dispatch to our large modern fleet ensures prompt and reliable service.

COMMERCIAL

Bin Size: 1.5m³ | 3m³ | 4.5m³

USES: Offices, shops, factories, shopping centres, events, stadiums, commercial businesses, manufacturing and institutions.

Green Gorilla specialise in providing long term sustainable solutions for all your recycling and waste requirements.

We collect waste and co-mingled recyclables in our specialised compaction vehicles. These vehicles maximise the volume collected on each route thereby reducing our environmental footprint. The co-mingled recyclables are delivered directly to our partner Visy Recycling Limited for automated separation into their respective materials. Waste materials including organics are delivered to our own facility for further sorting and treatment as appropriate.

Our 660 litre and 1100 litre plastic bins are also available with 'post box' lids for restricted access.

Our **FREE Green Gorilla App** allows fast ordering for all service requirements. Electronic dispatch to our large modern fleet ensures prompt and reliable service.

BUSINESS SOLUTIONS

Bin Size: 240L | 660L | 1100L

USES: Offices, shops, events, stadiums, banks, institutions and apartments.

INDUSTRIAL

Bin Size: 12m³ | 18m³ | 35m³
Capacity: Up to 10,000kg

USES: Factories, events, stadiums, commercial businesses, manufacturing, construction, demolition, logistics and bulk transport.

Wood Waste

We collect large volumes of wood waste for processing into Biofuel for use at Golden Bay Cement.

Our Commercial, Trade and Industrial divisions all have dedicated systems to collect treated and untreated wood waste from construction, demolition, warehouse and manufacturing sources for delivery to our chipping plant in Onehunga. We also accept clean wood waste from 3rd party suppliers.

We are proud to be associated with Golden Bay Cement who were awarded the EECA Renewable Energy Award in 2012 for their use of wood chip as a coal substitute.

USES: Construction, demolition, manufacturing, logistics, warehouses, transport and relocation specialists.

Portable Toilets

Green Gorilla specialise in providing long term sustainable solutions for all your recycling and waste requirements.

- Flushing portable toilet
- Includes separate urinal
- Hygienic, fresh, deodorised

Our standard unit comes with toilet tissue and liquid hand sanitiser. Standard pricing includes weekly service; additional services available on request. We offer a same day delivery service if required.

For special events and functions we offer a VIP range of fully flushing toilets and rest rooms.

USES: Construction, special events and functions.

Secure Destruction

Products out of date, redundant or defective and in need of secure destruction and disposal?

Don't risk sending them to landfill for 'special' burial. We pick up product and process it through our giant shredder before delivering it to landfill. That way you can be sure it will not end up 'on the market'.

After treatment at our facility we provide a certification of destruction and disposal and video evidence if required.

USES: Manufacturing, logistics, warehousing, retailers and importers.

Special Events

Green Gorilla is a large provider of special events services in Auckland.

We specialise in planning, mobilising for and executing recycling and waste removal services for Auckland special events.

We handle the whole process from management plan and implementation through to reporting on recycling and waste volumes.

Our team has the experience and skills necessary to ensure that your special event runs smoothly and complies with local government regulations.

SPECIAL EVENTS WE HAVE SERVICED INCLUDE:

Auckland Council community events, Taste of Auckland, Ironman, S.P.C.A events.

Client Testimonials

As port agents for most of the cruise ship visits to New Zealand ports **ISS-McKay** needs to ensure that things run like clockwork. For the last 3 years Green Gorilla have been contracted to provide recycling and refuse removal services to the ships visiting Auckland Port.

They have consistently met all of our strict service criteria and responded quickly to our needs. The key benefits to our business have been the high level of customer service from the team at Green Gorilla and their prompt delivery service-there are never any delays.

Since contracting them we receive better value for money than with our previous supplier; they offer a wider range of bins with fewer pick-ups required.

My overall ratings for Green Gorilla are: • Value for money 9 • Range of services 9 • Customer Service 10 • Overall service 9

All aspects of ISS-McKay's interactions with Green Gorilla are positive-they save us both time and money.

Richard Carvalho
CRUISE OPERATIONS MANAGER - **ISS McKay Limited**

de Bruin-Judge Furniture designs and manufactures luxury kitchens and cabinetry. DBJ has had a long standing commitment to responsible environmental management. de Bruin-Judge Furniture is ISO14001 and Eco Warranty certified.

Green Gorilla has helped DBJ implement its EMS waste management plans. Using Green Gorilla bins DBJ has been able to separate its waste streams in to different waste forms which maximises recycling and minimises waste going to landfill.

Emma Poyner
MANAGER - **de Bruin-Judge**

Paramount Services offer commercial cleaning and property maintenance services to both private and public sector organisations. Increasingly our clients require sustainable waste solutions. We have developed a long-term business partnership with Green Gorilla based on our common objective to reduce waste to landfill.

What we value most about working with Green Gorilla is their flexible and innovative approach, tailored solutions to suit the needs of our customers and genuine enthusiasm and vision.

They demonstrate a genuine interest in working closely with us to achieve our business objectives and support us to exceed our customers' expectations.

My overall ratings for Green Gorilla are: • Range of services 10 • Customer Service 10 • Overall service 10

We have found many benefits working with Green Gorilla; their alignment with our vision and values, high level of customer service and are a great team to work with on a day-to-day basis. They show a genuine interest in adding long-term value to our business.

Paul Brown
GENERAL MANAGER - **Paramount Services Limited**

PlaceMakers Cook Street are the biggest supplier to the local building industry in Auckland. About a year ago Green Gorilla started as a supplementary supplier but we now use them exclusively because of the high level of service we receive.

We have found them to be reliable, accurate, offer competitive pricing and keep us well informed. Their bins look professional on site, always clean and tidy and the turnaround time is fast for replacement bins.

Green Gorilla are doing a great job: they make life easier for us and our customers.

Tom Richmond
